The following factory installed items are covered for a warranty term of three (3) years:

- Original owner:
  - The following items are structurally warranted to the original owner for the lifetime of the boat. These items are
    - Hull
    - Frames

The following items are not warranted by the Company in any way, although the Customer may be entitled to additional warranty coverage:

- 1. Engines, outdrives, controls, propellers, trolling motors or other equipment or accessories manufactured by other companies which provide their own individual warranties.
- 2. Engines, outdrives, controls, propellers, trolling motors or other equipment or accessories manufactured by other companies which provide their own individual warranties.
- 3. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 4. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 5. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 6. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 7. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 8. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 9. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 10. Damages caused by improper trailer or mismatching of a boat to a trailer or failure to properly secure a boat to trailer or use a lower unit support device when trailering.
- 11. Transportation to and from the Dealer or factory for warranty repair, including towing expenses, haul out expense, loading or crane expense. It is the OWNER’S responsibility to provide transportation of the boat
- 12. Removal and/or derigging of engines or accessories
- 13. Installation of engines or other accessories not performed by the Company
- 14. Damage to or failure of (such as tears or fading) upholstery, carpet and any other soft goods
- 15. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 16. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 17. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 18. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 19. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 20. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 21. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 22. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 23. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 24. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 25. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 26. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 27. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,
- 28. Damage, failure or other problems with the boat’s finish, such as cracks, craze, blisters, scratches, chalking,

Innovation has been a hallmark of Triton Boats since we first began manufacturing fiberglass fishing boats. While our competitors were content to build their boats the traditional way, with wood in key structural areas, Triton's revolutionary Tri-Core composite construction totally eliminated wood and its possibility of rot, allowing us to offer a lifetime warranty on our hulls and transoms. America's anglers were quickly won over to Triton's advanced construction, fishability and performance, and soon the rest of the boating industry was playing catch-up.

For 2004, Triton's dedication to innovation is evident in our new X Series tournament bass boats. These "X-citing" boats have been engineered from the ground up to conquer bass fishing's most extreme conditions, and include groundbreaking features such as our retractable Res-Q Boarding Ladder, which was recently honored by the National Safe Boating Council with its prestigious Life Saving Innovation Award. B.A.S.S. founder Ray Scott has called our Res-Q ladder "the most important safety innovation since the engine kill switch." As this goes to press it's already saved one life, and we're certain it'll save more.

But Triton's innovation doesn't end at the production line. Our Triton Gold Tournament Bonus Program rewards Triton owners who excel in tournament competition with cold, hard cash. And our involvement with B.A.S.S. and ESPN through the Bassmasters Classic and B.A.S.S. Federation circuit puts us on the cutting edge in today's high-stakes tournament game.

But it's the men and women who build Triton Boats who are the true innovators, for their dedication to quality and unrelenting pursuit of excellence is unprecedented in the fishing boat industry. All of us at Triton welcome you to the pages of our 2004 Catalog. Please visit your nearby Triton dealer for a closer look at our latest bass and walleye boats, and to discover all the benefits of Triton ownership. We'd be proud to have you on board the Triton team!

Triton Multi-Species & Walleye Boats now have their own catalog! Ask your dealer for details!
The Tri-Core story

Triton has made composite construction the gold standard in fishing boat construction. Many fiberglass- and wood-framed fishing boats suffer from manufacturing defects such as the stringer system, transom, deck and floor. These can lead to costly structural failures. But there is no wood in a Triton. Many builders are now jumping on the composite bandwagon, but not all composites are created equal. Only Triton uses Tri-Core composite construction, leading to a revolutionary design that both wins and sets standards throughout the industry. Our revolutionary Tri-Core composite material is a super-strong polyurethane and fiberglass structural core material that can never rot. It bonds multiple layers of polyurethane and fiberglass together chemically and never comes apart. Triton makes the most wood-free composite construction possible.

Tri-Core has a density of only 23 pounds per cubic foot. This is less than most woods and less than fiberglass. In fact, Tri-Core weighs less per cubic foot than wood or fiberglass reinforced with polyester resin, yet it is much stronger. Tri-Core is unaffected by climactic changes. Structural tests show Tri-Core to be stronger and more resistant to impact than wood/fiberglass laminates. Triton has made composite construction the gold standard in fishing boat construction. Many fiberglass- and wood-framed fishing boats suffer from manufacturing defects such as the stringer system, transom, deck and floor. These can lead to costly structural failures. But there is no wood in a Triton. Many builders are now jumping on the composite bandwagon, but not all composites are created equal. Only Triton uses Tri-Core composite material, a super strong polyurethane and fiberglass structural core material that can never rot. It bonds chemically with fiberglass and wood and is totally waterproof and unaffected by climactic change. Triton is the only builder of fishing boats that uses Tri-Core, and that’s why it lasts longer. Just another way your Triton boat is built better than the rest.

Precision-matched stringer and hull

The zero-flex stringer system is precision-matched with the hull laminate. The stringer is precision-matched with the composite bandwagon, but not all composites are created equal. Innovation from start to finish

Innovations such as our powerful outboards, extra dry storage boxes, fresh, PALS system, revolutionary side-to-side re-circulating seating, new seat design and the new optional shock absorbing seats are some of the elements that separate Triton from the competition. Triton fishing comfort and innovation has to be in order to hold pace with Triton legends. Performance cutting edge look and details, comfortable ride.

Optional SAS shock-absorbing seat bases

Our optional SAS shock absorbing seat bases with molded foam and recessed bottom angle. The result is more comfort for the rider, and allows the rider to function perfectly. The finished boat is built to last to make sure that all major components are functioning perfectly.

Quad Spring Suspension

Quad spring suspension is a combination of four coil springs that provide superior suspension and control. The four coil springs are arranged so that they function individually to absorb rider's downward thrust on the boat's at the same time. The four coil springs are arranged to function individually to absorb rider's downward thrust on the boat's suspension system, not the rider. The four coil springs are arranged to function individually to absorb rider's downward thrust on the boat's suspension system, not the rider. The four coil springs are arranged to function individually to absorb rider's downward thrust on the boat's suspension system, not the rider. The four coil springs are arranged to function individually to absorb rider's downward thrust on the boat's suspension system, not the rider. The four coil springs are arranged to function individually to absorb rider's downward thrust on the boat's suspension system, not the rider.

A Deck You Can Depend On

Our deck is designed for maximum strength. It features four transverse bulkheads, which tie into the hull and act as energy-sapping, shock absorbing structures. The result is in-hull construction optimized for a rider.

Rear storage systems include side with storage and oversized openings

A Triton exclusive! Triton’s side storage boxes are designed to house your tackle trays for the ultimate in tournament fishability and versatility. Triton fishing comfort and innovation has to be in order to hold pace with Triton legends. Performance cut edge look and details, comfortable ride.

Extra-Capacity Rod Lockers

Oversized rod lockers are extra-deep for maximum capacity, and designed to channel gear dry. We’ve supersized the openings so maximum capacity, and designed to channel gear dry. Triton owners have a number of reasons to applaud their choice of fishing boats: exceptional quality, innovative features, outstanding performance, unmatched warranty and now one of the most lucrative tournament bonus programs in the business.

Triton Gold will put extra cash in the pockets of Triton owners for simply doing what they love to do...Fish hard and Win! The Triton Gold tournament bonus program offers up to $3,000 to Triton Boats owners who win an eligible tournament. And, as though the standard bonus wasn’t enough, the winners also earn the right to capture another $100,000 under the Triton Gold Elite Program. Triton Gold sanctions a host of freshwater and saltwater tournaments targeting bass, walleye, crappie, kingfish, redfish, and even speckled trout. To receive Triton Gold awards, you must register (once annually) 14-days prior to participation in your first Gold-sanctioned tournament of the calendar year. The Triton Gold registration fee is $20 for which you’ll receive an official Triton Gold cap and two Triton Gold decals. The rules are simple beyond the fact that it’s up to your determination and on-the-water transportation…don’t miss a golden opportunity!

Get complete details and a registration form online at www.tritonboats.com, or obtain a Triton Gold brochure including details and a registration form from any authorized Triton Boats dealer.

Take comprehensive protection to the next level!

Triton Protection Plus means total peace of mind. The ultimate protection package is now available for your Triton boat! Experience the peace of mind that comes with knowing your Triton boat, engine and trailer are protected by the boating industry’s strongest warranty! Triton Silver Protection includes the hull, engine and trailer. Triton Platinum Protection extends coverage to include most factory-installed components. See your Triton dealer for details, or visit our Protection Plus website, www.tritonprotectionplus.com.

Nearly 2000 sanctioned events; thus almost $2 Million in potential cash!

Find out how Triton leads in Owner Benefits! (Join the many successful pros and weekend anglers that have already chosen Team Triton!)

Triton boats are designed for deep water performance. It’s easy to choose a Triton boat because of its tournament fishability, hot performance and cutting-edge design and engineering. But there are even more reasons why you should join the Triton team:

1. Triton’s Limited Lifetime Warranty
   Triton’s superior materials and construction methods allow us to offer a Limited Lifetime Warranty on our fiberglass boats. This warranty covers the hull, stringers and transom. These parts are also warranted to a transferee owner for a period of 10 years from the original date of sale to the original owner.

2. Triton’s “Family Style” customer service
   Remember that Triton’s “Family Style” customer service is what makes us different! Earl Bentz and the Triton team are fishermen just like you, and that includes our friendly customer service representatives. They’ll handle any questions, concerns or comments you may have about your Triton boat promptly, courteously and completely. Whether it’s a question about engine height or prop selection, ordering a part, or a warranty issue, you’ll immediately experience the difference Triton’s “Family Style” customer service will make to your total boating satisfaction.

You’ll love Triton’s “Family Style” customer service!

When you become a Triton owner, you’re entitled to our fast, friendly “Family Style” customer service. Earl Bentz and the Triton team are fishermen just like you, and that includes our friendly customer service representatives. They’ll handle any questions, concerns or comments you may have about your Triton boat promptly, courteously and completely. Whether it’s a question about engine height or prop selection, ordering a part, or a warranty issue, you’ll immediately experience the difference Triton’s “Family Style” customer service will make to your total boating satisfaction.

Triton Gold is back and bigger than ever!

The 2004 Triton Boats Owners Tournament will be held June 24, 25, and 26, on Kentucky Lake and Lake Barkley out of Kentucky Dam Village. The 2004 Triton Owners Tournament will again be open to all who wish to participate with half the field competing on day one, the other half on day two, and a finale pitting the top teams from each of the previous days on day three.

This annual gathering of Triton owners is a great way to enjoy your Triton Boat in a fun, family-friendly, yet competitive atmosphere. The 2004 Triton Owners Tournament promises to be bigger and better than ever. Don’t miss out on this spectacular event…Sign-up today and come fish with us June 24-26.

Here at Triton, we’re great fans of the B.A.S.S. Federation. And to show our support for this important group of grassroots fishing enthusiasts, Triton (along with Mercury and Yamaha) is offering an unprecedented rewards program called the B.A.S.S. Federation Alliance. If all program benefits were paid, the program would reward more than one million dollars in cash and product to the State Federations and their members who own and compete in our brands. Incentives range from Triton team shirts (for retail purchases), to cash awards for participation in the Divisions, National Championship and Classic.

Owning a Triton brings pride, prestige, and rewards to B.A.S.S. Federation states and their members.

“The most important safety advancement since the engine kill switch!” That’s what B.A.S.S. founder Ray Scott called Triton’s new Res-Q Retractable boarding ladder. The National Safe Boating Council agreed, granting our latest safety innovation a Special Life Saving Award for Innovation. The Res-Q ladder remains totally hidden from view until a lock is released, enabling it to telescope from the stern. As it deploys, steps drop into place so you can reboard the boat quickly with no outside assistance. The Res-Q ladder can be deployed from either inside or outside of the boat, making it perfect for recreational boating as well as a groundbreaking safety device.

If they held tournaments on farm ponds, you wouldn’t need one of these boats! When high winds create surging waves on sprawling tournament lakes, you’ll be glad you’re fishing in an X Series boat from Triton! They’re extra deep for greater rough-water security, and they’re packed with over 30 innovative new features that make getting to your honey holes and executing your game plan a walk in the park.

The innovative tackle storage systems found on Triton’s X Series boats are second to none. Each boat comes with nine 3700-style tackle storage boxes, massive front and rear dry storage compartments and two tournament rod storage lockers, all geared to helping you access your gear faster so you can compete more effectively.

Super-Wide Front Deck

We’ve increased the casting deck’s length and width.

Over 30 new features!

A new standard in fishability, comfort and safety

Tournament anglers have long prized twin console boats for their added protection from the elements, but our new Tr-21X Dual Console raises the bar in driver and passenger riding comfort. Sporting ergonomic consoles providing maximum legroom, a new windshield design that successfully deflects air without obstructing visibility, a giant front casting platform and our award-winning Res-Q recessed boarding ladder, this Triton is the ultimate for big-water bass competition.

Safety, Performance, Quality
- Res-Q Retractable boarding ladder
- Upright and Level Floatation
- All Composite construction
- Limited Lifetime hull warranty
- 3-year warranty on most factory installed components
- Battery master shut-off switch
- Hydraulic steering
- Remote oil fill
- Automatic bilge pump
- Electric bilge pump
- Non-skid bow step mat
- Non-skid aft step mats
- Retractable passenger grab-handle
- Circuit breaker protected wiring
- Fishing Features
- Trolling Motor foot-control deck recess
- 24v MotorGuide trolling motor
- 1-Tempress style folding fishing seat
- 2-750 gph aerator pumps
- 2-750 gph recirculation pumps
- 2-pumpouts
- Livewell aerator timer
- 2-Front Pedestal Locations
- 3-rod buckles, 2-bow, 1-rod ramp
- 6-each, Triton “3700 style” tackle storage boxes
- Built-in fish measuring board
- Lowrance depth finder
- Port side rod-rack with 12-rod capacity
- 1-Bike seat and power pro-pole
- Bow trim switch
- "Stay-Full" livewell overflow system
- Conveniences, Style and Comfort
- Trim lever on the helm
- Full instrumentation and padded dash with tachometer, speedometer, voltmeter, fuel, and engine water-pressure gauge
- 2-deluxe size bucket seats for driver and passenger
- Bench style center seat
- Any boat color combination is available
- Stainless Steel pull-up cleats
- Tri-Pro 3-Bank battery charger with thru-the-deck receptacle
- Options
- Attwood S.A.S. Shock Absorbing fishing seat
- Attwood S.A.S. Shock Absorbing bucket seats
- 24v Minn Kota trolling motor

X Series

Built to conquer the real world of bass fishing

Professional level bass tournaments aren’t held on hundred acre lakes — if you hope to win, you need a boat capable of covering thousands of acres of rough water quickly, comfortably and safely. A boat that’s as effortless to fish from as it is beautiful to behold.

Our new Tr-21X is that boat. Increased freeboard, recessed trolling motor foot control, expanded front deck for superior fishability, and our exclusive boarding ladder – it's pro bass fishing’s most perfect boat.

Safety, Performance, Quality

- Res-Q Retractable boarding ladder
- Upright and Level Floatation
- All Composite construction
- Limited Lifetime hull warranty
- 3-year warranty on most factory installed components
- Battery master shut-off switch
- Hydraulic steering
- Remote oil fill
- Automatic bilge pump
- Electric bilge pump
- Non-skid bow step mat
- Non-skid aft step mats
- Retractable passenger grab-handle
- Non-skid aft step mats
- Circuit breaker protected wiring
- Fishing Features
- Mercury 200 hp Verado V-6 outboard engine
- 2-80hp Mercury Optimax V-6 outboards
- 2-25hp Mercury Optimax 4-stroke outboards
- Yamaha 225hp 4-stroke outboard
- Trolling Motor foot-control deck recess
- 24v MotorGuide trolling motor
- 1-Tempress style folding fishing seat
- 2-750 gph aerator pumps
- 2-750 gph recirculation pumps
- 2-pumpouts
- Livewell aerator timer
- 2-Front Pedestal Locations
- 3-rod buckles, 2-bow, 1-rod ramp
- 6-each, Triton “3700 style” tackle storage boxes
- Built-in fish measuring board
- Lowrance depth finder
- Port side rod-rack with 12-rod capacity
- 1-Bike seat and power pro-pole
- Bow Trim switch
- “Stay-Full” livewell overflow system

Convenience, Style and Comfort

We put our new Tr-20X Dual Console to the ultimate torture test, braving the windswept waters of the Gulf of Mexico as an official boat of the 2003 Bass Masters Classic! Here, the biggest names in professional bass fishing drove as far as 140 miles each way to their fishing grounds. The Tr-20X DC was up to the task, providing unparalleled rough-water comfort and security, and the most advanced fishing platform in competitive bass fishing.
You'll be in good company when you choose this Triton

Triton Pro Staff members like Shaw Grigsby put their trust in our new Tr-20X. It packages all the rough-water capability, enhanced fishability and innovative safety features of our new X Series in a size many of the top names on the pro tour find perfect for today's more intense brand of tournament fishing. Make yourself a legend in this sensational boat!

Boat may be shown with optional features
More capable than the competition’s 21-footers

Our beautiful new Tr-19X Dual Console proves a bass boat doesn’t have to be the size of the Queen Mary to conquer big, rough bodies of water! It’s an easily-towable/storable 19 feet 8 inches long, but it has all the innovative features of our larger X Series models, including ergonomic hate floating consoles, expanded front casting deck with recessed trolling motor station, increased freeboard for greater rough-water security, and our award-winning Res-Q retractable boarding ladder.

Specifications
- Length: 19’ 8”
- Beam: 93”
- Approximate hull weight: 1,660 lbs
- Optional: Bassmaster Package, Bassmaster graphics, computer controlled touch pad switch panel, Attwood S.A.S. Shock absorbing fishing and bucket seats, custom matched fiberglass trailer fenders, wood-grain steering wheel, swing away trailer tongue

Innovative features include:
- Lifestyle feature bars to make fishing easier
- Trolling motor foot-control deck recess
- 24-volt MotorGuide trolling motor
- 1-Tempress style folding fishing seat
- 2-750 gph aerator pumps
- 2-750 gph recirculation pumps

Here’s an X Series Triton that’s equally at home whether you’re competing in a local tournament on your home lake or racing the big bass in a BASS event on a sprawling reservoir! It’s ideally sized for slipping into tight places, yet its higher profile, extra freeboard and legendary hull design take the discomfort out of crossing wide expanses of rough water. Giant casting decks, wide seats, ergonomic console, Res-Q boarding ladder – they’re all standard.

Bass club or pro tour, this is one awesome boat.

**Bass club or pro tour, this is one awesome boat.**
A rare blend of performance, fishability and advanced engineering.

Triton’s TR Series has long captivated the imaginations of bass anglers everywhere with their unbeatable riding comfort, thrilling performance, ergonomic fishability, state-of-the-art tackle storage and groundbreaking composite construction. And like fine wine, they get better every year. No wonder they’ve been called the ultimate bass boats!

Bass fishermen want to know, “Where can I put all my stuff?” Triton’s TR Series addresses storage issues with innovative solutions, like oversized box openings, Redi-Rod organizers and our Pro-Active Lure Storage (P.A.L.S.) system.

A record number of Bassmaster Classic qualifiers...again

Triton’s Pro Staff is the best in the business, and they proved it when a record 17 of them qualified for the 2003 Bassmaster Classic. That’s after a record 14 Triton anglers qualified for the 2002 Classic. It’s a remarkable achievement, and further testament to the tournament-winning capabilities of Triton Boats!

"Might as well go first class!" It's a philosophy we at Triton can relate to, and these luxurious 22-footers prove it. Their extra length and wide beam translate into tremendous deck space, storage capability and fuel capacity. The legendary Triton performance hull turns a 90-mile run to your fishing hole into a walk in the park. With their fluid styling, angler-friendly features and attention to detail, these Tritons command the respect of your competition.
The rigs that revolutionized bass boating

Our Tr-21, first introduced in 1997, was the original Triton boat. With its wood-free composite construction, fluid styling, incredible rough-water ride, hot performance and tournament-level fishability, it became an instant hit with bass anglers everywhere, and revolutionized the way bass boats are built. Today, these classic rigs continue to dominate the competitive bass fishing world, and represent the essence of bass boating to thousands of anglers nationwide. Shouldn’t you become a part of that legend?

Perfectly sized for your brand of bassin’

You want a boat with spacious casting decks, acres of dry storage, good performance and a velvet-smooth ride.

But you also want a boat that can slide between stumps and standing timber to get you back into those hard-to-reach spots where the big ones prowl… and it’ll easily in your garage! A tall order for sure, but our popular Tr-20s do it all. Single or dual console, they’re the closest thing to perfection in bass fishing.

Sizzling performance in a fisherman-friendly package

Pop a 150 to 200 on the transom of one of our Tr-19s, put the hammer down and feel what legendary Triton performance is all about! Then drop the trolling motor and start fishing — you’ll be impressed by its rock-solid stability and those big, wide decks and roomy storage compartments will win you over to the Triton brand. Easy to tow, easy to store, easy to love — and it’s available with single or dual consols.

OFFICIAL SPONSOR
A BoaTload of features, fishability and performance

Forget about those stripped-down “entry level” boats - our 186s are genuine Triton boats, meaning they’re packed with the legendary features that have made our bass boats the dominating force on the pro bass circuit. Our revolutionary new Res-Q retractable boarding ladder comes standard, as does a giant front casting deck, our new ergonomic floating console, super-wide seats, recessed trolling motor station and color-matched trailer. And you won’t have to break the bank to own one!

Specifications

- Length: 18' 6"
- Beam: 91"
- Horsepower Rating: 175
- Approx. Hull Weight: SC: 1,440 lbs, DC: 1,480 lbs
- Fuel Capacity: 36gal
- Livewell Capacity: 36 gal
- Rear Storage/Baitwell: 84 qt/21 gal
- Rear Storage Boxes: 168 qt
- Built-In Ice Chest: 27 qt
- Front Storage Box: 300 qt
- Persons: 4 or 5

With optional features
Problems: You're dreaming of a high-performance tournament bass boat, but the rigs you've looked at have given you a terminal case of sticker shock. Solution: A Tr-185 from Triton! One of these all-composite 18 1/2-footers will rocket you ahead of the pack at bass club tournament blastoffs, and put the pot money in your pocket with its awesome fishability. Best of all, our 185s are as easy to own as they are to look at.

Rapid transport for the weekend angler
This Triton will put you in the winner’s circle.

Ask any of our Pro Staff members and they’ll tell you their angling careers began by fishing club tournaments, boat tournaments and after weekend bassin’ events. If you’re a dedicated basser who’s set his sights high, you need a boat that’ll help you realize your dreams…like our Tr-175 DC or SC. These affordable Tritons capture the legendary features that have made us #1 on the pro circuit, and will put you in the winner’s circle.

Fish like a pro in this affordable Triton.

Our most affordable Triton is the perfect bass boat for weekend bass outings. It brings you all the fishing and performance features that Triton boats are famous for, in an easy-to-tow, easy-to-store format. Huge casting decks, plenty of dry storage, depth finder, trolling motor – they’re all standard. Compare our composite construction, lifetime hull warranty and state-of-the-art fishing features to our competition, then take a test drive to experience firsthand what true Triton performance is all about.

- Compartment lighting in all storage boxes
- Tri-Pro battery charger with exterior plug
- Tinted windshield
- Multi-function lighted rotary control switches
Imagine casting for bass in the morning, then skiing, tubing or cruising the lake all afternoon! Triton’s Fish & Ski models combine the best features of a tournament bass boat and a luxurious ski boat into one exciting package. The sporty ski cabin features racy bucket seats forward and lounge seating aft, plus a tempered glass walk-through windshield and a rockin’ sound system. Tournament-style casting decks incorporate aerated livewells and plenty of rod and tackle storage, plus there’s a powerful trolling motor and a precision graph to put you on fish. There’s no better boat for making lasting memories with your family and friends than a Triton Fish & Ski.
Our beautiful SF21 is more than a boat — it’s a weekend getaway, a first-class ticket to fun in the sun. This spectacular 21-footer features a spacious ski cockpit with walk-through windshield, bow bucket seats, rear lounge seat, floor ski locker and a great sound system. But it also comes loaded with genuine Triton fishing features including twin casting decks, aerated livewell, graph, rod storage locker and more. For family fun, you can’t beat out SF21.

Sometimes compromise can be a beautiful thing

Here’s a fish-and-ski that combines a host of ski and fishing features into one beautiful boat. The roomy cockpit features vented bucket seats, concert sound system, spacious bench seating and a walk-thru-recessed windshield. When the mood strikes, climb up on the roomy casting decks, drop the trolling motor and cast for bass, crappie or walleye.

Our SF18 means pride of ownership and peace of mind — it’s an all-composite boat with a lifetime hull warranty.

**Motor & “fish & ski” and most bass fishermen turn up their noses. But our 190FS is a dual-purpose boat. But just the accent on fishing with its roomy casting decks, Motor Guide trolling motor, graph, rod box and acres of dry storage. Dressing this Triton will make you a hero with your wife and kids, too — it sports a ski cockpit with bucket seats, walk-thru windshield, rear storage and a killer sound system.**

At Triton, our goal is to match the style and durability of our trailers with that of our boats. Manufactured in a brand-new state of the art, automated facility, each trailer features a built-in recessed, waterproof system that is both convenient and secure. You'll have confidence and peace of mind when towing a genuine Triton trailer; boat when compared to other brands.

You'll have confidence and peace of mind when towing a genuine Triton trailer; boat when compared to other brands.

Triton's trailer frames are made to cradle your boat and keep its profile low for less wind resistance and easier egress/ingress.

**Fiberglass Fenders**

Fiberglass fenders are available in a variety of beautiful and functional with built-in lighting. The tandem fenders have a super-tough space age polymer material that is both strong and lightweight. These stock fenders are both stylish and functional with built-in lighting and maneuver with ease. You'll have confidence and peace of mind when towing a genuine Triton trailer; boat when compared to other brands.

**Heads always turn when a Triton pulls in!**
